Risks and consequences of purchasing from unauthorized sources:

NO WARRANTY: Products purchased may not be registered under the purchaser's name, and all warranties are limited and non-transferable. No warranties will be provided for products purchased from third-party platforms and/or at discounted prices. Purchased products could be counterfeit and of unknown quality.

DUBIOUS DEALERS: Purchasers are exposed to high risks such as unfulfilled orders, expired products, and defective items that may not be safe to consume. Products may be sold by dubious dealers without reliable contact information or support.

LACK OF SUPPORT: Unauthorized sellers may lack full knowledge about the product, services, or marketing plans and may not commit to providing purchasers with complete after-sales service and/or support.

By purchasing from unauthorized sources, you may miss out on understanding our company's vision and the unique opportunities we offer. Your purchase is more than just a transaction; it signifies a long-term relationship with us and our dedicated distributors.

Ensure to ONLY purchase our products from our official website and/or authorized distributors. Please report any discrepancies in pricing or suspicious sales activities to us. We take your concerns seriously and will address them promptly.

Please note: If the company finds any distributor is involved or participates in any actions that violate the company's policies e.g. price reduction or bringing products from overseas for resale, the company will take strict measures for ID termination.

Thank you for your attention.
